A t m o s p h e r e

Place yourself in the potential buyer's shoes, and consider the overall atmosphere of your home. Keep color, lighting, and smell in mind as you go through the home. Create an atmosphere within your home as one of shelter, a place that is safe and warm, and in good condition.

S m e l l

A clean smelling house creates a positive image in the buyer's mind. Be aware of any odors from cooking, cigarettes, pets, etc. that might have adverse affects on potential buyers.

C o l o r

Be cautious when selecting colors when painting or replacing carpeting. The key is to promote your home to the largest segment of the buying market as soon as possible. Stay with neutral colors- let the new owners choose their new color scheme.

K i t c h e n

Avoid clutter- store small appliances whenever possible to maximize the appearance of work space. Clean and organize all storage space. Sinks, cabinets, appliances, and counter tops should be clean and fresh.

G a r a g e

Sweep and wash the floor to remove dirt and stains. Organize tools, garden equipment, bicycles, etc.
